+63 949 874 8964 | Malamig, Bustos, Bulacan

Backend developer with experience in building and maintaining web-based applications using PHP, JavaScript, and MySQL. Skilled in designing efficient database structures and developing reliable system functionality. Focused on writing clean, scalable code and creating smooth user experiences.

Experience

Backend Developer Intern

Dec 2025 – Mar 2026

Magellan Solutions | Web Development Team | UAT Form Project

- Contributed to the development and maintenance of the UAT Form project under the web development team.
- Collaborated with team members to implement backend features and ensure system reliability and performance.
- Assisted in testing, debugging, and validating system functionality as part of the user acceptance testing process.

Projects

Backend Developer – Faculty Performance Monitoring System

Feb 2025 – Nov 2025

Bulacan State University – Bustos Campus | PHP, JavaScript, HTML, CSS, MySQL | Capstone Project

- Built a web-based faculty monitoring platform with full backend covering database management and system logic.
- Collaborated with faculty users to resolve document tracking challenges

Full-Stack Developer – Coffee Spot: Coffee Shop Management System

Oct 2024 – Dec 2024

Individual Project | Web Systems & Technologies | PHP, JavaScript, HTML, CSS, MySQL

- Built a full-featured POS web app with order management, inventory tracking, and automated PDF reporting.
- Implemented real-time UI customization allowing dynamic updates as customers modify drink preferences.
- Enhanced overall ordering experience by integrating interactive design with efficient backend functionality.

Trainings, Seminars & Certifications

Hackathon Participant

Mar 2025

Bulacan State University – College of Information Technology IT Summit

- Applied programming and problem-solving skills in a competitive setting.

Reimagine Tomorrow: Decoding the Future of Technology Through AI

Mar 2025

Bulacan State University – Seminar Attendee

- Gained understanding of how AI and machine learning are transforming software development and IT industries.

Introduction to Packet Tracer

May 2024

Cisco Networking Academy – Certification

- Completed Cisco's hands-on networking course covering IP addressing, routing, and device configuration.
- Designed and simulated basic network topologies using Cisco Packet Tracer in a virtual lab environment.

InnoVision: IT Insights for Tomorrow

Mar 2024

Bulacan State University – Seminar Attendee

- Participated in industry talks covering emerging technologies, digital transformation, and IT career trends.
- Expanded awareness of innovation-driven opportunities and the evolving landscape of the IT profession

Education

Bulacan State University – Bustos Campus

2023 – Present

Bachelor of Science in Information Technology | Graduated Magna Cum Laude

AclC College of Baliuag

2020 – 2022

Information & Communications Technology (ICT) | Graduated With Highest Honors

Skills

Programming Languages: C++, Python, Java, Php, Javascript

Framework: Laravel, Django

Backend: NodeJs, Bootstrap

Frontend: Html, CSS

Database: MySQL

Competencies: Backend Development, Web UI/UX Design, Problem Solving, Team Collaboration, Database Management
